PATENT EXAMINER

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-23 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: a beam writing position detecting device, as claimed, more specifically in combination with the surface of the detecting device inclining at substantially the same angle as the laser beams, is not disclosed or made obvious by the prior art of record. As understood, substantially the same angle means that the angles of the laser beams and the surface of the detector are close such that all the laser beams are incident on the detector surface at the same time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
